DETAILED ACTION

This is a Notice of Allowance for application no. 10/037,453 in response to the Pre-Appeal Brief Request filed on July 26, 2006.

Response to Arguments

Applicant's arguments, see Pre-Appeal Brief Request filed July 26, 2006, with respect to claims 1-22 have been fully considered and are persuasive. The rejection of claims 1-22 has been withdrawn.

EXAMINER'S AMENDMENT

The application has been amended as follows:

Claim 1 is amended on line 3 from ""discrete cosine transform of a p1urality of blocks of data;"" to --discrete cosine transform of a plurality of blocks of data;-- in order to remove the typographical error of "p1urality".

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose a system and method of simultaneously providing multiple DCT-encoded signals which use a different number of bits for the DCT coefficients as claimed.

The closest prior art (US Patent 6,335,760 to Sato) discloses a similar system and method of providing DCT coefficients using different amounts of bits (Col 9 Line 48-Col 10 Line 29). However, Sato fails to particularly teach or suggest "wherein a single

compression engine provides the first and second DCT-encoded signals at substantially the same time” as claimed. This feature taken with the other requirements of the claims teach over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
